

I would like to say thanks to everyone in the SSWWA for all the help and friendship you all gave me in my 40 years of working with you all. Thanks to all who have supported the water class and know those classes will continue to be successful in the future. I was always proud to attend Water Con knowing that our association was at the top in the state. Keep up the great work you all are doing. I'm keeping my work phone number so if you are ever near Oklahoma City give me a call. Thanks again for everything this association gave me.
