RE: WaterCon Scholarship

Dear Members,

The South Suburban Water Works Association (SSWWA) develops and supports people, agencies, and organizations that plan, build, maintain, and improve our water systems. Working together, SSWWA and its membership contribute to a higher and sustainable quality of life.

Part of the Association's mission is to help communities understand the critical role that waterworks operations play in our lives. To fulfill this mission, the SSWWA has created a scholarship program again this year to award selected members. The goal of the scholarship is to introduce educational opportunities to waterworks officials who, due to funding constraints, would not normally be able to attend WaterCon, the Illinois American Water Works Association (IL-AWWA) annual educational convention in Springfield. Eligibility for this scholarship is only open to public works officials only who were an established member prior to January 1, 2022.

Each scholarship winner will receive (1) complimentary entrance to the convention for (3) days, and a \$500 stipend for meals and lodging. Scholarship Reimbursement policy: Recipients will be responsible, for all expenses (travel, lodging meals), and making all travel arrangements. Winners will provide documentation showing that they attended the conference and then will be awarded the \$500 stipend.

Sincerely,

Tom Nagle
